

Student Contract
2010 Summer Regional Governor's School
MathScience Innovation Center
Funded by the Virginia Department of Education

The nature of an organization is defined by its rules. The following rules are integral to the success of our summer program. Please read them carefully.

1. Be on time. The program begins at 8:30 a.m. each day.
2. Make the commitment to attend the entire program. Perfect attendance is required. Medical appointments should not be scheduled during program hours. Certificates of completion will be awarded only to students who were present for the entire program, with the exception of an excused absence.
3. Remain on the campus of the MathScience Innovation Center at all times during program hours, except during authorized field trips.
4. Cell phones are considered for emergency use only. Student phones should remain in silent mode and students should refrain from texting during class times.
5. Alcoholic beverages, smoking, and illegal drugs are not allowed on campus or on field trips. Violation of this rule will result in immediate expulsion from the program.
6. You are encouraged and expected to talk, laugh, and share with others at appropriate times. However, please listen attentively when your instructors, guests, and to other students are speaking to the group. Cell phones are to remain closed and silent except in the case of emergency.
7. Please show care and respect for your instructors and classmates at all times. We learn and grow by working together in a positive way.

Exemplary behavior is expected at all times. Students who violate the rules will be dismissed from the program.

I accept the appointment to the 2010 Summer Regional Governor's School. I understand that I will be expected to attend all sessions, follow the rules of behavior, and participate actively. The program instructors, administrators, and the taxpayers of Virginia who support the program expect no less.
